

Help keep our nation, and your clients, safe.

Criminal offenders look for an easy way in.

As a human-services organization, you provide invaluable services that improve the lives of individuals in your community. As you know, the individuals you serve are often more vulnerable to abuse, neglect, and criminal acts than the general population.

Criminal offenders always look for an easy way in. Perpetrators search for:

- organizations that don't prescreen their employees
- places to work where they can slip through undetected
- an easy way to gain the trust of parents and caregivers

But now you can help protect your organization and the clients you care for. Riverport Insurance Company is pleased to collaborate with IntelliCorp® to offer background checks for our valued customers.

With background checks from IntelliCorp, you can rest easy — knowing your organization is doing everything possible to ensure the safety of our nation, your employees, and your organization.
